DAILY STANDARD. To the Electors of Vancouver Island District.

CENTLEMENT—In response to the solicitation of a number of prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, I have, after mature consideration, consented to do so, and have new the honor to solicit your suffrages at the approaching the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected; consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire outh-Eastern Coast of the Island from Johnson Straits

Straits

Under the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests, during the next ten years. Should, however, the question come before the Dominion Parliament, I shall endeaver to have the tariff so Tramed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

agricultural, mining, and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast, —and also better mail facilities in each Settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Namino and Victoria, I shall urge on the Federal dovernment the importance of the early construction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at. Namaino at once, and to erect

exertions to induce the Federal Government to build a lighthouse at Nanaimo at once, and to erect others elsewhere, as soon as possible, te insure greater safety and certainty in navigating the Guif.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of tiovernment Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

In equision of the early construction of a fairne flospital at Manaimo, I deem to be deserving of serious consideration.

The decological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to insure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The Fisheries along our coasts promise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and Dominional character.

In conclusion, Gentlemen, if you should do me the honor to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best of my ability.

I have the honor to be, tientlement, your obsciont servant.

Requisition. mad no was Lilloost, July 16, 1871. BASIL HUMPHREYS, Esq. Dear Sir :- The undersigned having full

onfidence in your fitness and integrity, reuest that you will consent to be nominated as our representative in the Legislative As We have the honor to be, Dear Sir. very respectfully yours

A. T. Jameson,

Rost, P. Ritonis, W. CHADWICK, W BRADY, JAMES CROZIER,

THOS. G. MARSHALL and 56 others.

Gentlemen : Nothing can be more gratif ing than the henor of having succeeded in gaining the apprebation and good will of the cople of one the most important constituen cies in the country, I have great pleasure in accepting the nomination alluded to in your requisition. The next Legislative Assembly will probably be the most important that has ever met in this colony, and it behoves all good men to be vigilant, and to exert themelves to insure the successful working of

Parliamentary Government. It may be found well in practice to remem-ber that the misrepresentations of those de-signing men, who so loudly asserted that ou were not qualified to exercise political unctions with advantage to yourselves or to the country, have been signally refuted, and that twelve years of misgovernment proves most conclusively, that they were not compe-tent to hold, or exercise, the office of governors with advantage or safety to the community Experience shows that it were vain to expect political improvement from men in whos official career is not to be found material progress, when not identified with their personal disastrous retrogression of the past, I am puzzled to account for the past, I am puzzled to account for the long continuance of a political system, to which is traceable so much unmixed evil a system containing within itself such active elements of ruin, which when considered in the abstract, might have been expected to put an end to its existence much sooner. Nor indeed is this all. It will be the duty of future legislators, in their post mortem examination of the late government to fearlessly probe the complicat-

ed disorders which payed a way for its final dissolution. It is not probable that any modern English community has suffered political ills so pati-ently as the people of British Columbia. The amount of maladministration, and the extraordinary nature of official aggrandizement is erfectly astounding, A mored splorab scollect tion of despotic follies can hardly be imagined. We have seen public servants voting their own salaries, fixing their own pensions, defying public opinion, and pursuing with studied malevolence, the popular representa tives. We have seen mere adventurers, employed as envoys entrusted with important state secrets-adverturers who are universal y execrated, whom the people have never trusted and have tong suspected—creatures who are to British Columbians what the hateful Claudians were to the Aucient Romans [Nay, to crown this humiliating drama, a perverse and apparently senseless superior authority, receive them with fulsome flattery, and an-plause and preferment is showered upon their heads in proportion to the miscinef that they have done.

The singularity baneful and distinctive the best interests of my constituents and prom nature of these events, is pregnant with reflecting mind numerous and important les-sons. The time appears appropriate for turning such lessons to account by improvements at once expedient, practical, and decisive; but they realize only half the danger which these events indicate, who see in them only official usurpation on the one hand, and determined opposition on the other. The lesson which these events teach us is, that gross legislation and extrene agitation are inseperably connected that each is the blood relation of the other.

Nay more, the danger indicated is to be apprehended by placing great powers in the by immediate not remote, certain not dubious constitutional laws that those power shall not

e abused. It will hardly be disputed by men of can-donr and experience that there are certain requisites indispensably necessary to the security and efficiency of all just governments the most important of which I believe to be, freedom and security against wrong. Now I think you will readily admit that most civilized governments have succeeded pretty well in securing the people against wrong from each other; but to secure them by laws against wrong from the government itself, is problem of a far more difficult sort, which w nations since the commencement of governments have attempted to solve. But it is a problem upon the solution of which depends the freedom and security of every existing nation against oppression and peculation, and which from its importance commends itself to be anxious and impartial consideration of all

men who are desirous of rendering permanent service to mankind. That it is not the business of those who govern to compel public opinion to follow them, but that it is their duty to follow public opinion, is a canon of my political creed. governed this colony, has been, both by precept and example to think differently, but the day is not far distant when the predictions of the advocates of justice and of reason shall be verified,-when the unjust and barbarous laws which disfranchised so many intelligent and worthy citizens shall exist only as evidence of the bigotry, and sordid ignorance of those from whom they emanated, when the promising future proclaims the results of Confederation, the promotion of arts and science, the diffusion of useful truth, of duration, of civil and religious liberty.

I carnestly trust that with the advantages

forded by Confederation and Responsible Government our popular representatiqes may of ar ignore local disues as to faithfully and permanently reform the bad legisla-tion of the past, and by a comprehensive and iberal policy, inaugurate a new era in our political history and theure the prosperity and

To the Electors of Tale-Lytton District. ENTLEMEN :—I have the hence to asknowledge the receipt of your requisition, and in accepting the honor you wish to confer on me, I will endeavor, to the best of my ability, to carry out your wishes an onlinions.

the best of my ability, to carry out your wishes and opinions.

I am not in favor of pensioning the officials, and will advocate the repeal of the Permanent Civil List Act. I will also vote for the repeal of the Qualification and Registration of Voters' Acts, as they are, in my opinion, unjust and unsuited to the people of this colony. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I sesure you that it will be my duty to advocate economy in every department of the Government, and to suppor that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressive party, whose principle it is to extend the power of the people and to remove those injurious laws, which are so degrading to the community.

I have the honor to be, gentlemen,

Yours very respectfully,

iylo

RARE OPPOBTUNITY FOR INVESTMENT.

THE UNDERSIGNED OFFERS FOR SALE

A TRAIN OF 15 MULES, 20 HORSES,

150 SHEEP.

The Farm is situated in Mission Valley, Ckanagan Lake, B. C. ## The Daily Standard. Friday, August 18, 1871.

Public Works. and extent of the public works requisite
to be undertaken by the Dominion Government, and to make choice of suitable sites upon which to erect such public buildings as may be required in fulfilment of the terms upon which British Golumbia entered the Dominion. Among those works which call for immediate attention are the erection of suitable buildinga for the use of the Post Office and Customs Departments in this city. Those at present employed are most in-adequate for the purpose, whether as re-gards their internal arrangement or the material of which they are composed. Si-uated as they are in localities surrounded on every side by buildings composed of Three-horse Power Threshing the most inflammable material, and subjeet at any moment to be reduced present beloon structures should as speculity as possible be replaced by substantial buildings composed of brickwork or atone. As regards their location, probastone. As regards their location, probastone. As regards their location, probastone. Molecular could be found, being censuad Carpenters.

MOODY, DIETZ & NELSON. merchants, traders, and ship-masters,
A Penitentiary sufficiently capacious to
meet the requirements of the Province

TENDERS FOR THE ERECTION, and
the materials necessary for a country wooden code. now and for many years to come, is also very much needed. The prisons at present in use in Victoria and New Westminster are neither adapted for the occu-pancy of a large number of prisoners, nor are they constructed with that due regard to the comfort and preservation of the health of their inmates, which in other parts of the Dominion is bestowed upon the involuntary homes of the criminal population. It is also very important that there should be a proper classification of prisoners, and that the young and not by any means the hardender should not for a first offence be herded in close companionship with the confirmed desperado and experienced thief, to imbibe their dangerous principles, and, by contact with them, leave the precincts of the prison a very much worse man than when he entered it. The ebject of prison discipline should be to reform crime not to confirm it, and hence the necessity of a building sofficiently roomy to admit of a judicious classification of prisoners, which cult impossible. Another reason why of prisoners, which is at present that the present sysem of parading prisoners through the public streets, fettered with chains like so many wild beasts, might be put an end to. The spectacle has a demoralizing influence upon those who witness it, and certainly only tends to harden those who are thus publicly exposed. The erection of a Marine Hospital at Victoria is also very much required. The present hospital, although better than none, is sadly deficient in almost every respect for the purpose it serves. It is lacking in room, destitute of proper ventilation, and wanting in all those internal arrange ments deemed necessary to insure the comfort of the sick, and to conduce to meet the requirements of the country for the present, would materially relieve the pressure experienced by those who have the management of the Royal Hospital, by removing from the wards of that institation those who would have a claim upon the Marine establishment. Besides various points along our coast for the safety of shipping, which will doubtless be brought to the notice of the Minister of Public Works, the question of our Dry Dock should not be overlooked, but should be pressed upon the attention of Mr. Langevin with all the force that these friendly to the scheme can bring to bear, as being of the very greatest importance to the maritime and commercial nterests of this section of the Dominion. We doubt not that when the Minister of Public Works has bad an opportunity to make a personal inspection of the proby actual observation our true geograph position and the urgent claim we have upon the Dominion for assistance to the full extent necessary to insure the completion of the work, he will not hesitate to place the matter in that light before his colleagues in the Government at Ottawa that will call forth their hearty ec-operation in providing the necessary capital to proceed at once with the work.

The visit of Mr. Langevin to this coast so soon after our admission into the Dominion, is an additional guarantee to the people of this Province that the Dominion. Government intend faithfully to ion Government intend faithfully to carry out their part of the agreement, and we trust that nothing may be left undone on the part of our citizens to make the visit of Mr. Langevin one of profit to the community and pleasure to that

News in a description of the Wimbledon camp thus refers to the Cambdian team:—The Canadian team will also, it is understood, have a special camp. With characteristic transatiantic acquinitiveness, they have entered themselves for everything open to them, and asseing that a few of them who visited irvine the other day brought back some £100 as "plunder," it is at least probable that our colonial counins will make their shooting pay their expenses, even if they should not carry over the water the Elcho shield the first time of asking. One can ship the commands of asking. One can be considered to the control of the c The Honorable H. L. Langevin, Minister of Public Works for the Dominion of Canada, is a passenger on board the steamship Prince Alfred, and may be expected to arrive here about Saturday next. His mission to the Pacific Cent we understand to be one of official duty, to learn by personal inspection and intercourse with the government and leading men of this Province the nature and extent of the public works requisite

Memory presides over the past. against property; extended for fourteen days. MAINLAND NEWS FROM THE GUARDIAN .- The newly elected City Council of New Westmin-Clarkson President. Mr. Tait, H. B Co., supplies our contemporary of the Fraser with additional news in respect of the Railway Survey.

Mr. Moberly will remain at Kamioons verors; Mr. Moberly will remain at Kamloops in order to see everything properly disposed of, so that there can be no delay in the dispatch of supplies. He will then go on to join the Kootenay exploration party. The Hudson Bay have leased the Similkameen farm, having already disposed of most of the stock. A man at work in Moody & Co.'s mill, B. I., had to suffer amputation of three fingers, on account of an accident received from a circular saw. The cargo of the Cornelis, which went went ashore a short time since, will be shifted to another vessel, and a survey held upon the hull. It is said a requisition is being signed at New Westminster asking Mr. Holorook to offer for the local Legislature.

and intermediate ports, with twenty passen- water. ford, a lot of spars from Chemainus for the navy, together with some farm produce, arrived at six o'clock last evening. Capt. Hame and Lieut. Diggle, R. N., Rev. Mr. Alexander of the Zealous, Mr. Peek, wife and family Mr. Care. amily, Mr. Carey, Mr. Fawcett, and Mr. Enskapeare were amongst the passengers. There were also on board the four Indians of the wrecked steamer Emily Harris-noted elsewhere. The ship Victor was loading coal at Nanaimo for Houolulu, to which port she would take 1000 tous for the use of the California and Australia steamship line. She will finish loading by Saturday evening.

WASHINGTON TERRITORY .- Laura De Force delivered a lecture at Olympia on Saturday it is incumbent that an expedition should be evening last, on "Our next great political problem," which was of course the part ing men. It is to be regretted that steps to which women will take in the future politics this end hadn't been made when the news of the United States. A second lecture was was first communicated to those on board the of the United States. A second lecture was
set for Wednesday, but didn't come off, and
the last very but didn't come off, and
the last very lightly left to fill other engagements. Mr.
J. H. Kellett was severely injured last week
by falling from his waggon. Mr. W. J.
Yager was also severely hurt, by falling
from a waggon and striking a log. Fights been placed on the list as a petit juror for the next term of the District Court. Business at Seattle is lively.

Oxs of the oddest questions ever submitted to lawers is now puzzling those of Hartford, Connecticut. It seems that a man who recently died there left a widow, childless, but expecting shortly to become a mother. By property should go to him, and one-third to the widowed mother. If, however, the child proved to be a girl, only one-third of the estate was to go to her, and two-thirds to the mother. The result, of course, was awaited with an interest even greater than that usually bestowed upon such events. The result isthe widow has become the mother of twinsa boy and a girl.

soon as the Army bill has passed through the same time it published half a column of the dangers which may still befal it, the "delayed," that appeared in the STANDARD the dangers which may still befal it, the Direct Commission list is to be turned to, and some hundred names extracted for im mediate appointment to first commissions To those who are anticipating service in the Captain Swanson, arrived at 10 o'clock yescavalry we may state that cornetcies will be terday morning with two passengers, Mrs. pretty liberally bestowed .- Army and Navy Kirkwook and Mr. John Tait of the H. B. Co.

WE call attention to the trade sale of American and English boots, gaiters, brogane, ladies' and misses' ware ; also, underclothing, coats, pants, vests, buck gloves, superior quality; ladies' underclothing, gents' hats; blankets; Baltic, white and cashmere shirts; Yankee notions; ladies' hats, etc. which will be sold this day at the salesroom Mesers. J. P. Davies & Co., at 11 o'clock on a liberal credit.

Sombrero Creek Gold .-- We saw a sample yesterday of the above gold, which is of a rich yellow color, and is worth \$17.25 per on. The party from whom the little lot was precured, had with him six ounces, the smallest piece being worth a dollar.

THE GROLOGICAL PARTY .- Professor Selwy B and party have arrived at Kamloops, and it was thought likely, in the first instance, they would ascend the Nerth Fork of Thompson liver; then return and follow the railroad party ole Ragle Pass to the Columbia river.

THE TELEGRAPH .- The line was down yesterday south of Portland, and there are no

THE "COLONIST'S" SENATORS -Somebody wrong down below, and to look out and get The next thing was, I found myself in the water, and caught a plank; Capt. Frain also got hold of a small plank; looking one side,... I saw the China cook go down at once, and was drowned; the passenger named Jack Lyman, one of the quarry hands, tried to catch hold of a barrel, but every time he tried to mount it, it turned around, so that he was unable to get upon it; this was the last l

saw of him. Shortly afterwards, Joe saw and heard the Captain, who called out to him, "Joe, are you there?" The Captain kept calling out you there?" The Captain kept calling out repeatedly, "Joe, Joe," until his voice be-came so feeble that at last, it was lost in the listance; and Joe doesn't know whether he floated away, or went down and was drowned.

With the belp of pieces of boards, the four Indians who came down on the Douglas, ster met on Tuesday, and elected Mr. W paddled about until they reached the shore,

them clothing and food. Joe, the engineer, says the foundation o the boiler gave way, which caused it to sink, thereby breaking off the steam and feed-pipes. This caused the water in the boiler to escape until there was but two inches left in it--forty pounds of steam pressure being marked on the guage at the same time. Jue then became frightened and went on deck, and narrated what we have already stated. Another Indian who was on board-one of the hands-corroborates the statement given

by Joe. Another of the Indian hands was asleep in the forecastle at the time of the explosion, and knew authing of the catastrophe until he found himself in the water. The Indian who was in charge of the wheel was NAMATRO.—The Douglas, from Nanaimo blown, with the wheeluouse, over into the

gers, 10 sheep from Salt Spring for Mr. Staf- Joe, the engineer, was unburt, and strange

arrival of the boat, the other two made off. Since writing the above report of the accident, we have beard several accounts, which and all right. It would appear, also, that yet been done in the matter: the vessel floated for a little time after the 1. No increase has been made to the inadeexplosion, which would lead to the supposisent up at once to make search for the miss-

LESSON PROM THE LOSS OF THE EMILY MARRIS. The explosion of the boiler of this boat, calls for some action on the part of the Govern. to-day, to record the terrible calamity of the loss of three lives, which is almost certain. It is stated the boilers of this old cockle-shell, (and it was well known the boat her-other. self (have been in an unsafe condition for marks for another occasion.

some time past. We shall reserve further re-SIR WALTER SCOTT, who was a lawer, once defended a house-breaker at Jedburgh. After should prove to be a boy, two-thirds of the the trial the prisoner sent for him, thanked him for his exertions, and said he was sorry he could not give him a fee; but he would give him two bits of advice: First, that a yelping terrier inside of a house was a better protection than a big dog outside; and, secondly, that no lock so bothered a housebreaker as an old rusty one.

Report of the Cariboo Grand Jury. some reference to the coal deposits. These,

The Grand Jury for the District of Cariboo

beg respectfully to represent,
That although a communication from his
Excellency the Governor, dated 25th August, were given by Joe and the others, at various times since the accident, and each story differs from the others, somewhat. Joe stated he Grand Jury of this district for last year, beard Capt. Frain cry out, several hours sub- stating that his Excellency would pay attensequent to the bursting, that he was alive tion to the following subjects, nothing has

quate amount granted to the Cariboo Hospital, the annual subsidy to which deserving institution we are of opinion should be augmented to at least five thousand dollars. No more frequent sessions of the Supreme Court have been held, nor have the exorbitant fees of the County Court been re-

No grant has been made to the William Creek Fire Brigade, although an appropriation of \$500 was recommended at the last session of the Legislative Council,

We would, therefore, beg once more to call attention to these important matters, being of opinion that the amount of taxation paid and knockdowns are of frequent occurrence ment. We believe that had the boiler of this attention to these important matters, being of opinion that the amount of taxation paid by the people of Cariboo entitles them to expect more consideration, and that the charge for seeking justice should not be greater in

We would recommend that the appropria tion made last session for trails in this district be expended without delay. The Lowhee trail is badly in want of repairs; a trail is wanted to Jack of Clubs creek, which promises to be an important mining locality; the road from Cameronton to the Meadows should be put in order, and a road of some sort is required to the Hospital, whither it is now a matter of great difficulty to convey patients suffering from disease or accidents. We would recommend that the Police be instructed to exercise a strict supervision over the houses and streets in Barkerville, especially in the Chinese sections, with view to promote the sanitary welfare and

cleanliness of the town. We would call attention to the condition of the public offices at Richfield. The Court House is miserably deficient in accommoda tion for jurors, witnesses, and the public, and the jail is too small for the requirements of so large a district. We would suggest that if all the Government buildings were removed to Barkerville, the centre of population in the neighborhood, it would be a decided con-

venience to the community.

J. SPENCER THOMPSON, Foreman. The Post Office.

VICTORIA, August 17, 1871, EDITOR STANDARD, -I see by this morning's papers that the gentleman connected with the

general post office of Canada has made great alterations in our postal arrangements, which will prove a great benefit to us. There is one from 12 to 1 o'clock, if he would allow it to remain open during that time, which would be a great accommodation to the working classes, for that is the only time the away from their daily labor. The postmaster could get his lunch just as well from one to two, and I don't think it would interfere with

obligation on a number of WORKINGMEN.

naimo, where he was informed there were some 250 children, did not come forward and assist in bringing about a system of education that would place at the disposal of every child the means of being educated as free as nature had bestowed her mineral wealth upon our district, they were unworthy of the fairest and best inheritance in British Columbia [great cheering]. Mr. was estimated at one million sterling. The Carey after aliuding to one or two did from the some control of the co

The sovereign has acquired the fictitious Mr. Shakspeare was then called upon, and value there, at which it has so long passed made a few very sensible remarks to the current in Nova Scotia, viz. \$5. This has audience, cautioning them against traders in led to the introduction of depreciated sovereigns, about thirty per cent, of those in circulation being under the legal weight. Capital commands a high rate of interest; some time ago 18 to 25 per cent per annum could be obtained on the best securities. We presume, however, that these extravagant rates could not now be realized. The government even on one occasion paid as high as 2 per cent. a month, for a four months loan. Public sentiment is stongly in favor of a decimal currency and all accounts are kept in dollars

We shall conclude this article by making after all, form the chief mineral wealth of the To the Hon. H. P. P. Crease, Justice of the Province. Excellent coal, both bituminous only good coal on the Pacific coast-a fact which generally enhances the importance of the deposits. The mine at Nanaimo, Vancou-vor Island was formerly worked by the Hud son Bay Company, but is now operated most successfully by the "Vancouver Coal Com-pany." It has an area of 900,000 sq. yards; three pits are opened and the seams are round about four feet in thickness. The round about four feet in thickness. The shares of this company are at a premium of over 20 per cent. The coal commands a ready sale at 24 shillings per ton, at the mouth of the pit. The Harewood company possess a seam adjoining the mine just alluded to but have not worked it. The yield of coal at Ranaime, in 1869, was 40,883 tone or qualities, having 66 per cent. of carbon. About 70 miles north of Nanaimo there is an xtensive coal arra, on which several companie have taken up claims. Anthracite coal has been discovered on Queen Charlotte Island and is being raised by a company. It readily

seils at \$10, at the mouth of the pit, or \$16 delivered at San Francisco. A country situated as that Province is and with such supplies of coal will necessarily become a manufacturing centre. Endowed with such resources, all that is needed is lines of communication—facilities for travel and cheap land and water carriage. Under the provisions of the Act incorporating British Columbia with the Dominion this great wan is likely to be fully met, and at the earliest day possible, in view of the serious obstacles that have to be surmounted, with a line of communication from the Atlantic to the Pacior Canadian Territory, we should be in a position to present inducements to the immi-grant, whether he be agriculturist, manufacturer or miner, such as can be offered by no

The South Africa Diamond Fields

other country on the face of the globe.

(From a letter to the Alta.)

KLIP DRIFT DIAMOND FIELDS OF SOUTH ) AFRICA, May 25, 1871. Since my last the Orange Free State sent command of 1,000 Burgers to Cawood's Hope, wenty miles below here, to enforce the

Cape Town to Cawood's Hope, and distributed transparent veil in the form of a Spanish them and a lot of cartridges among the miners. At the same time the Government of the Colony warned President Brand, of the Orange Free State, not to fire upon British subjects, or it would be considered as a declaernment. A mixed Commission is still silver crescents; sword of fine Lamascu sitting at Bloembaf, 100 miles up the river, steel, with hist of gold; scaled silver sheath and the latest rumors are that it has been on his head was a rose-coloured bonnet and the latest rumors are that it has been decided in favor of the natives; consequently, as the natives have turned it over to the English Government, it will have the control of the whole of the diamond fields on both sides of the river. Klip Drift and Pniel have sltered consider-

carat to-day besides."

OTTAWA, August 15-It is now positively asserted that the Marquis of Lorne and the Princess Louise will take up their residence here for a lengthened period. The Governor General's residence is being prepared for their

In consequence of the Washington Treaty a considerable reduction is expected to be made in the military forces.

EUROPE.

LONDON, August 14-The Queen is confined to her room, and physicians are in constant attendance. This sudden indisposition causes much anxiety in the Royal household. A dreadful calamity is reported in the Malay Archipelago, about 15 miles N. E. of the island of Celebes. An outburst of the volcano of Ruwary was accompanied by convulsion of the sea, and a wave of 40 yards in height swept all human beings, horses and cattle, from the island. Four hundred and

sixteen people perished.

The French Government is reported to have requested the extradition of the Communists who took refuge on British soil. The reply of the British Cabinet is said to be a decide

refusal. BERLIN, August 14-The National Zeitung denies that the convention is closed for the evacuation of the forts around Paris and the departments of the Seine and the Seine et

New York, August 16-Advices from Lon don state that fatal cases of cholers appeared on three steamers from Cronstadt to Hul', but the English authorities were taking every precaution to prevent its introduction by ships arriving at their ports.

London, Aug 16—Advices from Paris say the city is in an excited state and trouble is apprehended from various sources. It is felt

mouth of the pit. The Harewood company possess a seam adjoining the mine just alluded to but have not worked it. The yield of coal at Ranaime, in 1869, was 40,883 tone or enough to supply the city of Toronto; of this 17,700 tons were exported to foreign ports. This coal possesses excellent burning qualities. baving 66 per cant. of cashon make Thiers permanent executive, which is feared would establish a government not monarchical. Thiers has no friends. He is hated by the Republicans, Royalists and Imperialists alike. A crisis is approaching.

A dispatch says Bismarck has commenced a vigorous campaign against Papacy, and his first blow, declared in Parliament and in his crisis is that he required the Hisro-

official gazette, is that he regards the Ultramontane Church as hostile to German unity. He pas broken off all relations with it not purely political and has disolved the Catholic part of the Ministry. He is intriguing for the establishing of an Orthodox Catholic party—which name is applied to the oppo-nents of Infallibility—and is actively sup-porting Dr. Dollinger.

Bridal Dresses Ancient and Modern.

On casting a retrospective glance at the bridal dresses worn by the sovereigns and queens consort of England and other countries ip to the end of the eighteenth century, it becomes evident that magnificence and costliness were studied before elegance and grace. It is said that the dress of Marie Joseph of Saxony, on her marriage with Louis the Dauphin, son of Louis XV. of France, weighed sixty pounds; and this heavy garment she was compelled to wear all day. The Princess doz Scotch Tweed Shirts and Drawers was compelled to wear all day. The Princess Jeane of Navarre, on her marriage with the Duke of Cleves, was attired in a robe of cloth of gold, thickly studded with gems; a duca coronet of jewels encircled her youthful brow and the train of her mantle was bordered with ermine. Determined to offer the utterminers to pay the State a Royalty or license for mining. The miners who are 3,000 strong and mostly English, immediately armed and threw up entreuchments, determined to resist to the altar by the Cardinal de Montmorency. the tax. In the meantime while the Colonial Veils formed a portion of bridal attire at the British Government was called upon for arms and protection. They sent 250 muskets from her marriage with Cour de Lion, wore a mantilla, confined by a magnificent diadem of jewels, surrounded by fleurs de lys. Ancient weddings had one advantage over their modera representatives; we allude to the dress of the men, which greatly added to the splendour of the coup d'ail, whereas in our days it decidedly detracts from it. For example, the coup d'ail, whereas in our kins, Table Cloths, Cloth Caps, pie, there is the costume of Richard Cour do Lion on his wedding day. He wore a state tunic of rose-color belted round the waist? mantle of striped silver tissue, brocad of wi l broceded in gold with figures of animals.
Although wedding garmer, is and trossessus were generally very costly and sumptuous in the thirteenth century, the most niggardly member of the Royal brusehold could scarce ly have complained of the scanty outfit provided for the fair Provencal bride, Isabelle of
